

MINING IS ISSUE OF CHAMBER OF COMMERCE

(From Friday's Daily.)

Mining was the principal subject threshed out at the meeting of the Prescott Chamber of Commerce last night. Robert H. Hetherington and W. A. Kent promulgated their opinions as to the proposed publication of a mining booklet, which shall best portray the mineral resources of the greatest mineral county in the Union.

A rare unanimity of feeling was shown, indicating that the forthcoming booklet will be the most enlightening publication ever prepared by any body in the history of the country of Yavapai.

Reports made by Harry Heap indicated that progress was being made in the "Summer Colony," and that several substantial persons had signified their intention of locating in that favored section.

For the excursion from various points in Arizona, on the Santa Fe, W. A. Drake announced that half rates for the round trip would prevail. There is every indication that the Knights of Columbus will turn out strong to strengthen the session of the Territorial Council, to be brought together June 17-18.

Automobiles will convey the visiting Knights to their respective stopping places, and every care will be taken of them during their visit.

A telegram from T. Ed. Litt was read by the secretary, stating that the Tucson baseball team was prepared to lend its energies to the celebration, provided the necessary expenses would be forthcoming.

Mr. Doyle, for the Finance Committee, made a fine report of the fund devised for the entertainment of the Salt River valleyites, by which he placed at the disposal of the Prescott Chamber of Commerce several hundred dollars.

Mr. Heap suggested that \$25 be allotted to the use of the local band, with which to purchase music. This was seconded and carried with acclamation, everybody present recognizing the great prestige obtained for the city by means of the unanimous and self-sacrificing efforts of that organization.

Treasurer Brown announced that over twenty accession had been made to the list of membership since the date of the last meeting, as the result of the "Booster" campaign now on, and said that the end was not yet. Sundry other matters were settled.

With a continuation of the interest manifested, the Prescott Chamber of Commerce should easily reach its three-hundredth milestone in membership within the next thirty days.

ANOTHER VALLEY RAILROAD STARTED

Work is to begin at once on the branch railroad to the town of Chandler, six miles south of Mesa. The contractors are here with teams and tools, and the work is to be rushed. Grant Bros. have the contract for eleven miles of road, which will complete the track from the McQueen siding to the Pinal county line on the south. The contractors brought their outfit from Winkelman and kept about half the teams to work on this road and the remainder were sent on to California, where the firm has work for them to do. Whether the road will turn west at the Pinal county line or go on through to Sacaton, is a question that has been discussed by many, without arriving at a satisfactory answer. Everything now indicates that the line will be built direct to Chesa Grande, as that would open up a good lot of valuable land in the valley of that name. The settlers already there have been working on a reservoir proposition for some time past and claim to have it at a point where water is practically assured. This being true the branch road would be a big factor in the speedy settlement of that section.

The building of the road from Mesa to Chandler will mean a big influx of home-seekers for the valley. The Chandler company has surveyed some 18,000 acres in small tracts and these are to be sold on long time with easy payments. In addition to farm lands, a townsite has been platted and lots will be sold to those who want them. Advertising will be placed in many of the leading papers of the country offering inducements for the small farmer, the man with limited means, to acquire a home of his own in the most favored valley of Arizona. These advertisements will undoubtedly induce hundreds of families to come to Arizona, and once here there is little question but that they will invest. With abundant water and fertile soil, the valley offers the best inducements to home-seekers that can be found in any state of the Union.

Grant Bros. have an easy contract. The level mesas require but little grading; there will be no rock work, and no heavy bridges to build between Mesa and the Pinal county line. It should take them but a

short time to complete the work. Then it will be "Change cars for Chandler," and another forward step in the growth of the Salt River valley will have been taken.—Phoenix Republican.

BURGLAR ARRESTED.

(From Friday's Daily.)

Deputy Sheriffs C. C. Keeeler and Joe Young effected the capture, Wednesday night, of Francisco Ruiz, at the section house in West Prescott, after considerable trouble lodged him in the county jail. Ruiz had burglarized the place, taking away almost everything that he found, and when caught had many of the articles in his possession. He will have his preliminary examination today and is recently from the war zone in Mexico.

MORE GOLD BULLION.

(From Friday's Daily.)

The Prescott National Bank yesterday received a bar of gold bullion from the Tiger Gold company, at Harrington, valued at \$700, and a car load of concentrates was also received by R. H. Hetherington, of greater value. This is the regular semi-weekly consignment from that property.

MINERAL APPLICATION NUMBER 014470.

United States Land Office, Phoenix, May 29, 1911.

Notice is hereby given that Lake Superior and Nevada Development Company, by Henning E. O'Lund, its attorney in fact of Crown King, Arizona, has made application for patent to the Arizona Mascot, Arizona Mascot No. 2, Arizona Mascot No. 3, Arizona Mascot No. 4, Arizona Mascot No. 5, Arizona Mascot No. 6 lode mining claims, survey No. 2863, situated in Tiger Mining District, Yavapai County, Arizona, in Section 26 Twp. 10 N. Range 1 W. Prescott National Forest, described as follows:
